EXPERIENCE

HackNY Engineering Intern

Skillshare

June 2016 – August 2016

- Wrote the frontend and backend for new features on the web platform and made improvements to the class recommendation algorithm.
- Part of the HackNY fellowship program.

Software Engineer

Rutgers University

June 2015 – December 2015

- Helped develop a backend to generate and grade quizzes for the ~10,000 students enrolled in a Chemistry or Mathematics class at Rutgers.

Tutor

Rutgers University

September 2015 –

- Tutor students in Computer Science topics and assist with debugging.

EXTRACURRICULARS

Vice President

Rutgers Project Euler

August 2016 –

- Guide students through programming questions along with providing technical interview preparation.

Executive Board Member

Rutgers USACS / HackRU

September 2014 –

- Help arrange our events including tech talks on various technologies.
- Assist in the organizing of HackRU, our biannual hackathon with over 1,000 attendees, by contacting sponsors, assisting participants, and contributing to the backend for the website.

Mentor

Rutgers USACS

September 2015 –

- Help my mentees to develop their skills in Computer Science by working on projects and attending hackathons.

PERSONAL PROJECTS

Hackerspace Print Queue

- Webapp used by Rutgers University which allows students to submit requests for our 3D-Printer.
- Node.js, jQuery, Sendgrid, AWS S3, MongoDB, Express

Shrednought

- Unity3D game which uses a Fourier Transform library to decompose input signals from a real guitar into frequencies which map to different game controls.
- C#

HackBoard (Winner at HackHers)

- Webapp to help hackathon participants form teams for projects.
- HTML, CSS, JavaScript, jQuery, Handlebars.js

notes-cli

- Command line tool that utilizes a fuzzy string matching library to allow users to query their notes and return the top results.
- Python

SKILLS

Languages: Python, JavaScript, C, Java, SQL, PHP, HTML, CSS, Scheme

Frameworks/Libraries: Express, Node.js, Flask, Backbone.js, jQuery, Bootstrap, Yii, Arduino

Database Systems: MongoDB

Operating Systems: Linux (Debian)

Version Control: Git

EDUCATION

B.S. Computer Science – Music Minor GPA: 3.45
Rutgers University 2014 – 2018
